Deputy Director for Administration

John,

He should advise me.  
Shortly that we responded  
to his request and nothing  
more can be done of course  
although not a copy of this  
memo. Copy of letter should  
go to Hqs with indication  
that we have done all we can.

MEMORANDUM FOR THE RECORD:

FROM: [REDACTED]  
Chief, Operations, FMD, OL

Subject: Evermay Trees

1. At the request of [REDACTED] (Office of Congressional Affairs), I contacted Mr. Don Silies of the Virginia Department of Transportation (VDOT). I asked Mr. Silies whether it would be possible to plant eight additional juniper trees (8-10 feet or larger) at the rear of Mr. Shortley's property in Evermay, Section 7. Mr. Silies reminded me that they have previously done two things in an attempt to assuage Mr. Shortley. First, the trees that have been planted in that area are the largest that can be planted with any degree of confidence that they will last. Secondly, against the advice of the VDOT horticulturist, Mr. Silies ordered the contractor to decrease the space between plantings to give Evermay more trees than originally planned. Reducing the spacing gives the short term affect of greater initial density but may reduce the long term density by inhibiting the "filling out" of each individual tree.

2. In effect, Mr. Silies was saying that Evermay got the biggest trees they can get and they got as many of them as was possible to place on the right-of-way. I believe this should be communicated to Congressman Wolf's office and to Mr. Shortley.
